The Symbols and Regalia

The visual symbols of Vanderbilt University communicate our rich history and our vibrant future. The oak tree is a traditional symbol for education as well as for strength and longevity. The stylized oak leaf and acorn in the Vanderbilt logo were inspired by motifs from the Vanderbilt family coat of arms. The predominant colors in the Vanderbilt coat of arms are black and gold. The initial “V” has been used frequently throughout the years as an architectural detail on campus buildings. The Vanderbilt University wordmark incorporates two typefaces, graphically linking old and new, our history and our future.

The current chair of the Faculty Senate carries the mace, an ancient sign of authority. It is displayed on the front of the podium as the symbol of the university’s authority to confer degrees. Symbolic images that decorate the gilded metal of the mace include VU monograms, embattled shields, oak leaves and acorns, irises and magnolias.

The chancellor’s insignia of office is a silver and gilt collar that displays several emblems of the university. The parallel chains of sterling silver are surmounted by alternating Vanderbilt shields and modified Founder’s Medals, from which hangs a medallion with an impression of the seal of the university. The decagonal silver frame of the medallion symbolizes the ten schools.

Trustees of the university wear black gowns distinguished by gold piping on the velvet bars of the sleeves. The design of the academic regalia and the colors worn are significant. Undergraduates—those receiving bachelor’s degrees—wear tassels signifying the degree they have earned: golden yellow for science, pink for music, and orange for engineering. By tradition, the bachelor of arts degree tassels are black.

The distinguishing mark of the gown is the sleeve: bachelor—a long, pointed sleeve; master—an oblong sleeve open at the wrist; doctor—open, pointed sleeves lined with dark blue satin to signify the Ph.D. Vanderbilt’s custom gown for those receiving the doctor of philosophy has antique gold front and back panels and an embroidered “V” on the gown’s yoke. Vanderbilt doctoral candidates wear eight-sided velvet tams with gold tassels.

The velvet edging of the doctoral hoods signifies whether the degree is J.D., M.D., Ed.D., D.N.P., or Ph.D.—purple for law, green for medicine, light blue for education, apricot for nursing, and dark blue for the doctor of philosophy, which may be earned in a number of disciplines. Masters’ hoods are edged with white for arts, brown for fine arts, gold for science, purple for law, salmon pink for public health, peacock blue for public policy, scarlet for theology, light blue for education, orange for engineering, apricot for nursing, and light brown for business. All hoods are lined with silk in colors signifying the institution granting the degree. Vanderbilt hoods are lined in gold and bear a black chevron.

The Banner Bearers

Each banner, with a field in the appropriate academic color, is decorated with the Vanderbilt logo. In recognition of Peabody’s history, a Peabody Centennial Medal in a round walnut frame is mounted above the banner. Banner bearers this year are:

Jordan Samantha Janis for the College of Arts and Science

Gloria Liu for the Blair School of Music

Ian Dennis Faucher for the School of Engineering

Yifan Fu for Peabody College

Natalie S. Gale for the School of Nursing

THE Nichols- Chancellor's MEDAL

The Nichols-Chancellor's Medal is one of the university's highest honors and is awarded to individuals who define the 21st century and exemplify the best qualities of the human spirit. It was established by Vanderbilt Law School graduate Edward C. Nichols, Jr., and his wife, Janice, in memory of Edward Carmack Nichols and Lucile Hamby Nichols. The medal is presented at Vanderbilt's Senior Class Day and also carries a monetary award.

The 2019 Nichols-Chancellor's Medal is presented to tennis legend Venus Williams, who is among the most accomplished and inspiring women in the history of sports—holding seven Grand Slam titles, five Wimbledon championships, and four Olympic gold medals. Williams' ascent began at the age of 14, when she took the tennis world by storm with her confidence and outstanding performances. Today, Williams continues to compete on a global stage, and has also made waves as a designer, advocate, entrepreneur, and New York Times bestselling author. As a testament to her creative side, Williams has gone on to found V Starr Interiors, a full-service commercial and residential interior design firm, as well as her activewear brand, EleVen, the largest apparel line ever launched by a female athlete.

Beneath all of these accomplishments, Williams is also a persistent champion of equality. The United Nations cultural organization, UNESCO, titled her the first "Promoter of Gender Equality," and the Anti-Defamation League (ADL) honored Williams with the Americanism Award for publicly defending Israeli player Shahar Pe'er, who was barred from the Dubai tennis tournament. In addition, she has been honored as *Glamour* magazine's "Woman of the Year," and ESPN's "WTA Player of the Year," and has secured a spot in *Vogue* magazine's "Top 10 Best Dressed" list, among countless other accomplishments.

THE FOUNDER'S MEDAL RECIPIENTS

Ethan Chervonski, from Peachtree Corners, Georgia, is this year's Founder's Medalist for the College of Arts and Science. He is graduating with a bachelor of arts.

Since his freshman year, Ethan has worked in the lab of Assistant Professor of Cell and Developmental Biology Rebecca Ihrie, researching how different populations of stem cells contribute to tumor development in the brain. He also worked with Professor of History Marshall Eakin as part of a team assessing health care in Brazil. The Brazil project helped Ethan gain understanding of how health is impacted by politics, the criminal justice system, poverty, and other issues of health care access. Ethan plans to combine his research training in neuroscience with insights about the human condition he has gained through the social sciences and humanities to develop patient-centered care as a physician. He will spend the next year doing post-baccalaureate research in the Ihrie Lab, after which he plans to apply to medical school.

Brigit Maynard Fitzgerald, from Phoenix, Arizona, is this year's Founder's Medalist for the Blair School of Music. She is graduating with a bachelor of music.

Brigit is almost as passionate about math as she is about music. She graduates with a degree in bassoon performance, a second major in mathematics, and a minor in scientific computing. A Cornelius Vanderbilt Scholar, Brigit won the Elliott and Ailsa Newman Award for Excellence in woodwind performance, has been a winner of the Vanderbilt Orchestra Concerto Competition, and previously performed as a soloist with the Phoenix Symphony. She spent summer 2018 at the prestigious Aspen Music Festival and School, and summer 2017 at the Vanderbilt Musique Academie in Aix-en-Provence, France. She also enjoyed sharing her knowledge of the bassoon with students in Colombia during a trip with the Vanderbilt Wind Symphony in spring 2018. After she and her twin sister, Abbey, graduate from Blair, Brigit will pursue a master of music in bassoon performance at the University of Texas at Austin.

David K. Zhang, from Clarksville, Tennessee, is this year's Founder's Medalist for the School of Engineering. He is graduating with a bachelor of science.

Science and technology and the combining of computational and theoretical tools are David's passions, and he has developed skills and knowledge through a triple major in computer science, mathematics, and physics. As a graduate student, he plans to continue working at the intersection of these areas. "As the scope of scientific inquiry and the sizes of available data sets continue to expand," David says, "I believe that these combined skills will become increasingly necessary to answer our biggest questions." David co-founded the Vanderbilt chapter of the Association for Computing Machinery and served on the Undergraduate Honor Council.

He has been recognized for academic performance, promise as a research leader, and skills as a speaker. After graduation, David will intern as a software engineer at Microsoft, followed by doctoral studies in applied mathematics and scientific computing at Stanford University.

Emily Joellen Burgess, from Kingsport, Tennessee, is this year's Founder's Medalist for Peabody College. She is graduating with a bachelor of science.

Emily graduates with majors in human & organizational development and history & economics and a minor in philosophy. While at Vanderbilt, Emily devoted time to serving vulnerable communities. In her first year, she co-founded a local chapter of Project RISHI, a national nonprofit aimed at improving the human condition in rural India. Emily also helped create a service-learning course in which students work with local community partners to better the lives of refugees in Nashville. As part of her HOD capstone project, Emily worked through the Nashville Office of Family Safety with victims of domestic abuse and sexual assault, and with legal professionals advising those victims. Emily sees a career in public service as her greatest means of empowering and supporting her community and plans to attend Vanderbilt Law School in the fall to work toward this goal. She acknowledges her family's love and encouragement for helping her along her path.

Maria Angeline Michonski, from Chapmansboro, Tennessee, is this year's Founder's Medalist for the Divinity School. She is graduating with a master of divinity.

With a full-tuition Dean's Scholarship at the Divinity School, Maria has immersed herself in her studies, focusing on religion, gender, and sexuality. She expanded and enriched her experience and knowledge through involvement in campus groups including the Vanderbilt Office of LGBTQI Life, the Margaret Cuninggim Women's Center, and the Vanderbilt Queerality Affinity Group. She was also a summer institute intern for the Public Theology and Racial Justice Collaborative for the Divinity School. Maria aspires to work in the nonprofit sector after graduation in fields related to gender, sexuality, and justice to create sacramental experiences for LGBTQIA+ people in the South. She also hopes to become a practitioner of biodynamic farming and help to educate people on holistic, ecological, and ethical approaches to farming and gardening.

Matthew Kemper Davis, from Montgomery, Alabama, is this year's Founder's Medalist for the Owen Graduate School of Management and is graduating with a master of business administration.

After beginning a career in management consulting at the Houston office of PricewaterhouseCoopers, Matthew arrived at the Owen School motivated, as he always is, by memories

THE FOUNDER'S MEDAL RECIPIENTS

of his late father's daily instruction to study hard, work hard, and play hard. Matthew has worked hard at Owen, earning a 4.0 GPA and devoting time to the Owen Finance Club and to nonprofit organizations such as the Juvenile Diabetes Research Foundation, Savefirst free tax preparation service, and Tutormate, which helps first-grade students in low-income communities learn to read. Matthew's wife, Danielle, is studying in Vanderbilt's Adult-Gerontology Acute Care Nurse Practitioner program (Class of 2020) and is attending Commencement along with her parents, Matthew's mother, Kelly Davis, and his older brother, Andrew Davis. After graduation, Matthew will begin a career in oil and gas investment banking at Goldman Sachs in Houston.

Joshua Burton Landis, from Hamilton, Massachusetts, is this year's Founder's Medalist from the Law School. He is graduating with a doctor of jurisprudence.

Josh's honors at Vanderbilt Law School include the Archie B. Martin Memorial Prize for Scholarship, for the highest average for the first year, achieving Dean's List all semesters, serving as the Notes editor for the *Vanderbilt Law Review*, and being selected for the Myron Penn Laughlin Note Award for contributing the best student note published in the *Vanderbilt Law Review*. Josh was a John Wade Law Scholar, was a Moot Court finalist, for which he received the Best Oralist award, and was selected for Phi Delta Phi Legal Honor Society. He also served as a Law School Ambassador and as the president and treasurer of Cork & Tap Legal Society. After clerking for the Honorable Karen Le Craft Henderson, U.S. Court of Appeals for the District of Columbia Circuit, Washington, D.C., Josh will join Latham & Watkins in Menlo Park, California, as an associate.

Ian Miller Williams, from Petaluma, California, is this year's Founder's Medalist for the Graduate School. He is graduating with a doctor of philosophy in molecular physiology and biophysics.

Ian is fascinated with blood vessels. After a year of trying and failing, he was mesmerized when he could finally observe blood flow in the leg of a live mouse under the microscope. This passion has inspired his scientific career in vascular biology and laid the foundation for a prestigious grant from the National Institutes of Health. As a scientist, his goal is to discover treatments for metabolic and cardiovascular diseases by running his own laboratory in an academic setting. And because he wants his work to impact public health, he will also seek opportunities to take his discoveries from the laboratory to the clinic, to directly benefit patients. Ian is currently a postdoctoral fellow at Stanford University, studying the cells that line blood vessels, and he hopes to continue learning more about them for the rest of his career.

Brooke M. Faught, from Brentwood, Tennessee, is this year's Founder's Medalist for the School of Nursing. She is graduating with a doctor of nursing practice.

When Brooke decided to work toward a doctor of nursing practice degree, she was already a successful entrepreneur and nurse practitioner. In 2005, she developed the Women's Institute for Sexual Health, and she has turned WISH into an internationally recognized center. A few years after the center launched, Brooke's daughter was born with Down syndrome, and Brooke began a mission to pave the path for her daughter and all women with intellectual and developmental disabilities to receive relevant and appropriate sexuality education. Her doctoral project, "Social Boundaries in Young-Adult Females with Down Syndrome as a Foundation for Sexuality Education," has the potential to change how health care providers talk about sexuality with their patients with intellectual and developmental disabilities. After graduation, Brooke will continue this work, as well as her role as health care provider, director of WISH, and part-time faculty member for the School of Nursing.

Jessica Lindsay Burriss, from Midlothian, Virginia, is this year's Founder's Medalist for the School of Medicine. She is graduating with a doctor of medicine.

Jessica spent time as a patient during her early years of medical school, recovering from a long-term illness. The physicians she encountered became her model of effective doctor-patient interactions and inspired her to develop interpersonal skills, as well as medical knowledge, as a student. "Effective communication brings understanding to suffering," Jessica says. "And compassion, when practiced skillfully in the setting of strong medical knowledge and clinical acumen, is inherently healing." Jessica's resilience and positive attitude are matched by her exemplary leadership, research, and service and exceptional academic and clinical performance. She has held national leadership roles developing and implementing a patient-powered research network, was selected for Alpha Omega Alpha Honor Medical Society and the Gold Humanism Honor Society, and delivered the 2019 Vanderbilt Flexner Medical Student Lecture. She will be continuing her training in psychiatry at Yale University.

Alma Mater

*On the city's western border, reared against the sky,
Proudly stands our Alma Mater as the years roll by.
Forward! ever be thy watchword, conquer and prevail.
Hail to thee, our Alma Mater, Vanderbilt, All Hail!*

*Cherished by thy sons and daughters, memories sweet shall throng
'Round our hearts, O Alma Mater, as we sing our song.
Forward! ever be thy watchword, conquer and prevail.
Hail to thee, our Alma Mater, Vanderbilt, All Hail!*

—ROBERT F. VAUGHAN, 1907

The medallion on the cover of this program
is the Official Seal of Vanderbilt University,
adopted by the Board of Trust on May 4, 1875.

The Office of Commencement and Special Events extends its gratitude to all of the faculty, staff, and students who helped behind the scenes to create truly memorable Commencement celebrations for our graduates, our special guests, and the university community. We offer special thanks to the student team of Elliott M. Grant, Gabriel A. Hoppock, and Jeremy T. Langham who conducted a study of the Commencement procession. Their empirical findings helped improve the organization and flow of the ceremony. They were mentored by Professor David Berezov and Professor Cynthia Paschal.

Any questions about Commencement week events and programs should be directed to the Commencement and Special Events team at commencement@vanderbilt.edu or by calling (615) 322-2870.
